

Product Description

The STEM-0013 is an inclusive freestanding play panel that makes a great addition to nearly any outdoor playground. It features a powder-coated frame with the Roller Ball Insert, Spin Maraca Musical Insert, and Communication Panel.

STEM Benefits

Roller Ball Insert: This engaging insert features smooth, durable composite balls that spin effortlessly as children glide their hands or fingers across the surface. With a marbled, multi-colored design, the balls offer both tactile and visual stimulation, making it a delightful sensory experience for children of all abilities.
Spin Maraca Musical Insert: This playful insert features two rotating drums to choose from, each filled with different-sized stainless steel balls to create unique maraca sounds. Easy to spin and lightweight, it's perfect for adding rhythmic fun. Part of our interchangeable insert system for flexible installation.
Communication Panel: This panel features intuitive picture symbols, words, letters, and numbers used to break down communication barriers during play. It helps users express needs, share ideas, ask questions, and creates meaningful interaction for children of all

abilities.
